

# RECORD 2 CHANNELS OF AUDIO WITH MV7i ON MOTIV Mix™ DESKTOP APP

**SHURE**

MOTIV Mix desktop app makes 2-channel recording easy, allows you to configure DSP features for both your MV7i mic and any XLR mic / instrument you plug into it.

- 1 Download the preview build app installer for your device's operating system. Once downloaded, click **open** to install.
  - 2 Plug your XLR mic into the back of MV7i. Then plug the MV7i to your computer with the USB-C cable.
  - 3 Choose an Audio Output Mode: Mixdown / Multi-Track / Stereo.
- ✓ You are now ready to start testing!

**Windows 64-bit**

**Mac OS**
